DETAILED ACTION

Claims 1-98 are currently pending.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

The groups are as follows:

- I. claims 1-94, 98, in part, a product where R1 is IIa.
- II. claims 1-94, 98, in part, a product where R1 is IIb.
- III. claims 1-94, 98, in part, a product where R1 is IIc.
- IV. claims 1-94, 98, in part, a product where R1 and IId.
- V. claims 1-94, 98, in part, a product where R1 is IIe.
- VI. claims 1-94, 98, in part, a product where R1 is IIf.
- VII. claims 1-94, 98, in part, a product where R1 is IIg.
- VIII. claims 1-94, 98, in part, a product where R1 is IIh.
- IX. claims 1-94, 98, in part, a product where R1 is Ili.
- X. claims 1-94, 98, in part, a product where R1 is IIL.
- XI. claims 1-94, 98, in part, a product where R1 is IIIm.
- XII. claims 1-94, 98, in part, a product where R1 is IIIn.
- XIII. claims 95-97, in part, use of a product where R1 is IIa.
- XIV. claims 95-97, in part, use of a product where R1 is IIb.
- XV. claims 95-97, in part, use of a product where R1 is IIc.
- XVI. claims 95-97, in part, use of a product where R1 is IId.
- XVII. claims 95-97, in part, use of a product where R1 is IIe.
- XVIII. claims 95-97, in part, use of a product where R1 is IIf.
- XIX. claims 95-97, in part, use of a product where R1 is IIg.
- XX. claims 95-97, in part, use of a product where R1 is IIh.
- XXI. claims 95-97, in part, use of a product where R1 is Ili.
- XXII. claims 95-97, in part, use of a product where R1 is IIL.
- XXIII. claims 95-97, in part, use of a product where R1 is IIIm.
- XXIV. claims 95-97, in part, use of a product where R1 is IIIn.

2. The inventions listed as Groups I-XXIV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature linking the claims is not a contribution over the prior art. For example,

 is taught by GB 707293. Therefore, the technical feature linking the claims does not constitute a special technical feature under PCT Rule 13.2. Accordingly, the claims lack unity of invention, and restriction is proper.

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are listed in claims 81-94.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder. All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product

are found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowable product claim will not be rejoined. See MPEP § 821.04(b). Additionally, in order to retain the right to rejoinder in accordance with the above policy, applicant is advised that the process claims should be amended during prosecution to require the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.** Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.
